

**Request:**

1. In the last financial year (19-20) how many cases of domestic violence did you investigate where the victim was an adult and the alleged perpetrator(s) were aged 17 or under?

*Please provide an age breakdown of these children who were investigated and a breakdown by gender.*

2. How many children aged 17 or under were:  
(i) cautioned and (ii) charged with domestic abuse in the last financial year (19-20)?

*Please provide a table showing the numbers charged for each type of specific offence.*

**Response:**

Please note the report shows:

- NIICL qualifier is domestic flag='Y' or PPN attached = 'Y'
- Victim - persons age at time of offence = greater than or equal to 18
- Suspect - persons age at time of offences = less than 18

1. 247 crimes – please be aware that in some cases there were more than one suspect identified

Suspect Age (at Date of Offence)	Total
<b>10 or under</b>	4
<b>11</b>	3
<b>12</b>	3
<b>13</b>	9
<b>14</b>	14
<b>15</b>	15
<b>16</b>	90
<b>17</b>	114

Suspect Gender	
<b>Male</b>	148
<b>Female</b>	104

2. 15 outcomes with charges or cautions:

	Violence With Injury	Violence Without Injury
<b>1: Summoned/postal requisition</b>	1	7
<b>1A: Alternate offence summoned/postal requisition</b>	2	
<b>2: Youth caution</b>	2	
<b>3: Adult conditional caution</b>	1	2

Due to the different methods of recording information across 43 forces, a specific response from one constabulary should not be seen as an indication of what information could be supplied (within cost) by another. Systems used for recording this information are not generic, nor are the procedures used locally in capturing the

information. For this reason responses between forces may differ, and should not be used for comparative purposes.

Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that this data has been extracted from a number of data sources used by forces for police purposes. The detail collected to respond specifically to your request is subject to the inaccuracies inherent in any large scale recording system. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when interpreting this data.

The numerical data presented in this response is an un-audited snapshot of unpublished data sourced from "live" systems and is subject to the interpretation of the original request by the individual extracting the data. The figures provided therefore are our best interpretation of relevance of data to your request, but you should be aware that the collation of figures for ad hoc requests may have limitations and this should be taken into account when those data are used.

If you decide to write an article / use the enclosed data we would ask you to take into consideration the factors highlighted in this document so as to not mislead members of the public or official bodies, or misrepresent the relevance of the whole or any part of this disclosed material.
