

# Anti-Social Behaviour Action Plan

Working in Partnership

## Victim First

We will work to improve victim satisfaction and confidence, putting victims at the centre of our approach.

## Best Use of Data

We will work to better understand the county anti-social behaviour problem in greater depth.

## Tackle Offending

We aim to disrupt offending through effective use of relevant legislation and powers.

## Problem Solve

We will use problem solving plans to tackle specific anti-social behaviour issues that are persistent and reoccurring.

## Community Engagement

We will work to better understand the voice of young people, and diverse communities.

## Hotspot Policing

We will be visible and accessible, especially in areas disproportionately affected by anti-social behaviour.

## Early Intervention

We will work with partners to implement early intervention strategies to prevent anti-social behaviour and address the underlying causes.

## Transparency

We will listen and engage with Northamptonshire communities throughout the anti-social behaviour action plan.
